Dear Ms. Brizzolara:

Thank you for submitting your application for renewal in the Environmental Laboratory Accreditation Program. Enclosed is a Certificate acknowledging your lab's accreditation for a one-year period beginning 12/16/2009. Also enclosed is your current Scope of Accreditation.

Renewal of accreditation is based in part on review of your lab's performance over the past year as evidenced by participation in proficiency testing (PT) studies. In general, full accreditation is awarded for those parameters for which the two most recent PT results, if applicable, were rated satisfactory. Provisional accreditation is awarded if the latest of the two most recent PT results was rated "Not Acceptable." Accreditation is withheld for those parameters for which the two most recent PT results were rated "Not Acceptable."

As a reminder, continued participation in the Ecology Lab Accreditation Program requires the lab to:

- Submit a renewal application and fees annually
- Report significant changes in facility, personnel, analytical methods, equipment, the lab's quality assurance (QA) manual or QA procedures as they occur
- Participate in proficiency testing studies for applicable chemistry parameters semi-annually.

If you have any questions concerning the accreditation of your lab, please contact Alan Rue at 360-895-6178, fax (360) 895-6180, or by e-mail at arue461@ecy.wa.gov.

Sincerely,

for

is accredited for the analytes listed below using the methods indicated. Full accreditation is granted unless stated otherwise in a note. Accreditation for U.S. Environmental Protection Agency (EPA) "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods" (SW-846) is for the latest version of the method. SM refers to "Standard Methods for the Examination of Water and Wastewater," 18th through 21st Editions and the Online Edition, unless otherwise indicated. ASTM is the American Society for Testing and Materials. Other references are described in notes.
